

— SOUND FAMILIAR? —

The refusal arrived twelve days ago. Nobody has read the clock.

Immigration Intake & File Checklist — Lawyer Edition (Ontario) · six matter types · one file · opens in your browser

- ✓ **The 2023 application was agent-prepared.** Nobody has seen what it actually said — and every new answer must reconcile with it.
- ✓ **The spouse's child was never declared.** It surfaces years later — at sponsorship, when it hurts most.
- ✓ **A reconsideration request was sent.** Every deadline kept running while everyone waited politely for a reply.
- ✓ **The program was chosen for the post-graduation permit** — and nobody checked the current rules.

The tool flags all four while you type — and 90 more. Every critical flag opens a practice note: what to watch for, why it comes up, and what you should check.

STATES NO DEADLINE

You ascertain each window from the official and Federal Courts sources; 15 live counters keep it in front of you. A refusal file opens with one demand: read the clock today.

CONSISTENCY ENGINE

Every answer is checked against every prior application, by every family member, to any country. The commonest misrepresentation isn't a lie — it's a forgotten file.

HONEST BY DESIGN

It never states the law, a rate, or a deadline. It tells you which questions to ask — and where to confirm the answers yourself.
