Built for RCICs. Honest about where your scope ends.

Immigration Intake & File Checklist — Consultant Edition (RCIC) · five matter types · one file · opens in your browser

- ✓ **The earlier application was ghost-prepared abroad.** You inherit answers nobody can verify.
- ✓ **A refusal needs the Federal Court — a lawyer's work.** The window ran while the referral sat.
- ✓ **The sponsor was once sponsored as a spouse himself.** Nobody checked his own history.
- ✓ **The super visa insurance met last year's requirement.** It fails this year's — at the border.

The tool flags all four while you type. Judicial review carries a hard referral gate: identify the road, ascertain its window so nothing dies, refer without delay.

SCOPE-AWARE

Built around the College's framework. Federal Court work routes to a lawyer referral — with the clock ascertained and recorded before the hand-off.

CONSISTENCY ENGINE

Every answer is checked against every prior application, by every family member, to any country. Ghost-prepared files are the trap this was built for.

STATES NO DEADLINE

You ascertain each window from the sources; live counters keep it in front of you. The tool states no deadline, no rate, no rule — ever.
